

DECEMBER 2018

Monthly commentary

Net Asset Value

The Net Asset Value (“NAV”) per share as at 31 December 2018 was 101.65 pence. In December (in GB Pound terms) the NAV was up 4.0% whilst the BSE Mid Cap TR Index was up 3.3%, delivering an out performance against the notional benchmark of 0.7%. In local currency terms, the NAV was up 3.4% for the month.

Portfolio update

Positive contribution to the portfolio’s performance came from Jyothy Laboratories (up 15.1%), City Union Bank (up 11.9%) and Kajaria Ceramics (up 12.2%). Negative contribution came from Aurobindo Pharma (down 9.6%), Radico Khaitan (down 3.6%) and Balkrishna Industries (down 3.8%).

Market and economic update

December was another volatile month for Indian equity markets. It began negatively with the BJP’s defeat across three key state elections and this was followed by the surprise resignation of the Reserve Bank of India (RBI) Governor, Dr Urjit Patel. Sentiment recovered later in the month as macro-economic indicators improved on the back of crude oil prices further correcting by 9%, consumer price inflation being lower than expected in November at 2.3% (the lowest since June 2017), and with

the appointment of Shaktikanta Das (ex-economic affairs secretary) as the Governor of the RBI for a term of three years. In the end the Sensex ended the month down 0.3% while Midcap Index was up 2.7%, both in local currency terms. Foreign Institutions and Domestic Institutions were both net buyers in the month (respectively US\$332m and US\$47m). In December the Rupee depreciated 0.3% against the US Dollar but appreciated 0.6% against the GB Pound.

The state election results were perceived to be a blow to the momentum of Prime Minister Narendra Modi ahead of national elections in 2019. The Congress Party is now set to succeed BJP governments in Rajasthan, Chhattisgarh and the crucial state of Madhya Pradesh, in the biggest defeat for Modi since taking office in 2014.

The recent change of RBI Governor follows long term and persistent differences on several issues between the Government and the central bank. However the market reacted positively to the appointment of Shaktikanta Das, perhaps believing it could lead to better communication between the RBI and the Government, some relaxation in certain regulations for the banking sector and a more accommodative monetary policy.

Investment objectives

To provide long term capital appreciation by investing predominantly in listed mid and small cap Indian companies. Investments may also be made in large cap Indian companies where the Fund Manager believes long-term capital appreciation will be achieved. The Company may hold liquid assets (including cash) pending deployment in suitable investments. It is the Company’s declared policy not to hedge the exposure to the Indian Rupee.

Portfolio analysis by market capitalisation

Fund adviser

Gaurav Narain joined the Group in November 2011, having been immersed in the Indian equity markets for the previous 21 years. He has held senior positions as both a fund manager and an equities analyst in New Horizon Investments, ING Investment Management India and SG (Asia) Securities India. He holds a Masters degree in Finance and Control and a Bachelor of Economics degree from Delhi University.

Investment Philosophy

The investment manager believes that in India, optimal returns will be generated over time by investing in companies that are well placed to benefit from the structural growth potential of the Indian economy, combined with the highest quality of management best able to exploit this opportunity. The fund uses a consistent and disciplined bottom up stock picking process to select investments from our best ideas, unconstrained by a benchmark.

Regulatory information

The information in this document does not constitute or contain an offer or invitation for the sale or purchase of any shares in the Fund in any jurisdiction, is not intended to form the basis of any investment decision, does not constitute any recommendation by the Fund, its directors, agents or advisers, is unaudited and provided for information purposes only and may include information from third party sources which has not been independently verified. Interests in the Fund have not been and will not be registered under any securities laws of the United States of America or its territories or possessions or areas subject to its jurisdiction, and may not be offered for sale or sold to nationals or residents thereof except pursuant to an exemption from the registration requirements of the U.S. Securities Act of 1933, as amended (the "Securities Act"), and any applicable state laws. While all reasonable care has been taken in the preparation of this document, no warranty is given on the accuracy of the information contained herein, nor is any responsibility or liability accepted for any errors of fact or any opinions expressed herein. Past performance is not a guide to future performance and investment markets and conditions can change rapidly. Emerging market equities can be more volatile than those of developed markets and equities in general are more volatile than bonds and cash. The value of your investment may go down as well as up and there is no guarantee that you will get back the amount that you invested. Currency movements may also have an adverse effect on the capital value of your investment. Investing in a country specific fund may be less liquid and more volatile than investing in a diversified fund in the developed markets. This Fund should be seen as a long term investment and you should read the Prospectus whilst paying particular attention to the risk factors section before making an investment. Please refer to the Prospectus for specific risk factors. Where reference to a specific Class of security is made, it is for illustrative purposes only and should not be regarded as a recommendation to buy or sell that security. Market index information shown herein such as that of the S&P BSE Mid Cap Total Return Index is included to show relative market performance for the periods indicated and not as standards of comparison, since indices are unmanaged, broadly based and differ in numerous respects from the Fund. This document is issued by Ocean Dial Asset Management Limited and views expressed in this document reflect the views of Ocean Dial Asset Management Limited and its Mumbai based affiliated company and advisor, Ocean Dial Advisers Private Limited as at the date of publication. This information is for the use of intended professional and institutional investor recipients only and may not be reproduced, redistributed or copied in whole or in part without the express consent of Ocean Dial Asset Management Limited.
